

Redefining Our Purpose

Sembcorp aims to play our part in creating a sustainable future. Our purpose is to not only do well, but also do good.

Enabling a Low-carbon and Circular Economy

Climate change and resource scarcity are becoming more pressing issues. Sembcorp is committed to playing our part in enabling a low-carbon and circular economy. We aim to maintain the highest standards of environmental management, reduce our greenhouse gas emissions intensity and grow our portfolio of low-carbon energy assets, while providing innovative business solutions to support a circular economy.

“ We successfully put up 119 units of wind turbine generators across an area of 700 square kilometres, connected them to the grid and completed the project ahead of schedule. With renewable energy, it is possible to have blue skies and clean air while contributing to India’s economic development and growth. ”

Ankur Rajan
Chief Operating Officer
Sembcorp Green Infra

The 250-megawatt SECI 1 project marks the first delivery of installed capacity awarded under India’s nationwide wind power tenders. Completed ahead of schedule, it is estimated that SECI 1 will light up more than 216,000 homes and reduce carbon dioxide emissions by over 700,000 tonnes per annum.

Empowering Our People and Communities

We seek to empower our people and communities. We believe in creating a values-based and performance-led culture at Sembcorp, where health and safety is an integral part of our everyday business. Through engagement and partnerships, we aim to make a lasting positive impact on our communities.

“ The VSIP projects are a very good example of what strong partnership and close cooperation among governments, businesses and communities can bring about. When everyone works towards the common good, synergies happen and everyone benefits. ”

Anthony Tan
Deputy General Director
Vietnam Singapore
Industrial Park JV

Since its founding in 1996, Vietnam Singapore Industrial Park (VSIP) has flourished and has become a leading developer with seven sites across Vietnam. The VSIP projects have attracted US\$12.9 billion in investments from over 800 multinational companies and leading local enterprises, resulting in more than 241,000 jobs created.

Embedding Responsible Business Practices

Sembcorp maintains an effective governance and decision-making structure that embeds responsible business practices within the organisation. We are committed to fostering an ethical culture and conducting our businesses with integrity. We recognise the importance of the effective identification of risks, and work hard to ensure we have an adequate and effective risk management and internal control system.

“ Responsible business practices support the long-term viability of our businesses and build trust and confidence with our stakeholders. We are committed to conducting our business legally, fairly, honestly and with integrity, and expect the same of those with whom we do business. ”

Looi Lee Hwa
General Counsel and Head
of Legal & Compliance
Sembcorp Industries

Sembcorp believes in maintaining high standards of behaviour and integrity, and being best in class for governance practices. In 2018, we rolled out the revised Code of Conduct and provided training. By year end, over 99% of our employees have acknowledged their compliance with the Code.
