

PRESS RELEASE

Embargoed for release until 26 February 2018, 5.05pm Singapore Time

Participation by the Singapore Consortium in Phase Z.ro Development at Amaravati Capital City Start-up Area

Visakhapatnam, India, 26 February 2018- The Singapore Consortium, comprising Asia's leading sustainable urban development providers, Ascendas-Singbridge and Sembcorp Development, a wholly-owned subsidiary of Sembcorp Industries, referred henceforth as the Singapore Consortium, intend to participate in setting up a visitor centre and exhibition gallery at the Amaravati Capital City Start-up Area in the state of Andhra Pradesh, India, known by its working title "Phase Z.ro". The Singapore Consortium was appointed through a Swiss Challenge process as master developer of the Start-up Area which is spread over 684 hectares within the Guntur-Krishna districts, along the Krishna River.

Phase Z.ro is proposed to be established by a joint venture company to be incorporated by the Singapore Consortium (through their joint venture entity Singapore Amaravati Investment Holdings) and Amaravati Development Corporation, an agency of the State Government of Andhra Pradesh, and is pending finalisation of terms between the parties. The development will be carried out in compliance with the Swiss Challenge process.

Phase Z.ro is proposed as part of a larger catalytic development and would include a visitor centre and exhibition gallery that would span 4,000 square metres of gross floor area. Phase Z.ro would act as a foundation of the Start-up Area and a key touchpoint for visitors and citizens to get a glimpse of Amaravati Capital City as it develops. It would also serve as a platform for business promotion and a gallery for sustainable urban solutions concepts applicable to the future capital city. Phase Z.ro would also function as a community hub, with its expansive land area of over two hectares. Local residents would be able to access it for recreation and community engagements.

ABOUT SEMBCORP IN INDIA

The Sembcorp Group entered the Indian energy market in 2010 and is one of the biggest foreign investors in India's power sector today. The Group recently initiated the process for a proposed initial public offering of its India energy business, Sembcorp Energy India Limited (SEIL), on BSE Limited (BSE) and the National Stock Exchange of India (NSE).

The Group currently has an effective stake of 93.73% in SEIL, formerly known as Thermal Powertech Corporation India. SEIL owns the Group's entire portfolio of thermal and renewable energy businesses located in India, including 100% of Sembcorp Gayatri Power, as well as 100% of Sembcorp Green Infra.

This represents assets with a combined capacity of 4.07 gigawatts as of December 31, 2017, to which an additional 300-megawatt wind energy project was added pursuant to a successful bid in a reverse auction conducted by the Solar Energy Corporation of India in February 2018.

Sembcorp's wholly-owned urban development business, Sembcorp Development, is jointly-appointed with Ascendas-Singbridge, the master developer of Andhra Pradesh's Amaravati Capital City start-up area. Sembcorp Development, while new to India, has more than 25 years of experience in transforming large tracts of raw land into world-class integrated urban developments. It has a portfolio of thirteen landmark projects in emerging markets of Asia, supported by the governments of Vietnam, China and Indonesia. These developments have attracted some US\$23 billion in investments from close to 900 multinational companies and leading local enterprises, delivering the economic engine to support industrialisation and urbanisation, and accelerating growth.
