¹ Basic earnings per share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company (excluding perpetual security holders) by the weighted average number of ordinary shares outstanding during the year, adjusted for own shares held.

² Diluted earnings per ordinary share is by dividing the weighted average number of ordinary shares outstanding adjusted for the effects of all dilutive potential ordinary shares. The Company has two categories of dilutive potential ordinary shares: performance shares and restricted shares.

³ In computing the FY2020 fully diluted earnings per ordinary shares, the weighted average number of shares was not adjusted for the effects of all dilutive potential ordinary shares as at December 31, 2020 as these potential ordinary shares were antidilutive.

B6. Assets or disposal groups held for sale

Accounting policies

Assets (or disposal groups) are classified as assets held for sale and measured at the lower of carrying amount and fair value less costs to sell if they are expected to be recovered principally through a sale transaction rather than through continuing use.

Any impairment losses on initial classification and subsequent gains or losses on re-measurement are recognised in profit or loss. Subsequent increases in fair value less costs to sell are recognised in profit or loss (not exceeding the accumulated impairment loss that has been previously recognised).

- a. On September 1, 2020 the Group announced that CSE Holding Pte Ltd, a wholly-owned subsidiary, signed a conditional agreement to divest its entire 32% stake in joint venture company Shenzhen Chiwan Sembawang Engineering Co (CSE) to Chixiao Enterprise Co, for a total gross consideration of RMB150 million (approximately S\$30 million). As at December 31, 2020, the condition precedent were substantially met and accordingly, the carrying value less impairment of this joint venture was classified as assets held for sale.
- b. On February 6, 2020, the Group announced that certain wholly-owned subsidiaries of Sembcorp Utilities Pte Ltd had agreed to sell 100% of their interest in the water business in Chile for a total consideration of CLP27.8 billion (approximately S\$49 million) to the Spanish construction and engineering service SACYR S.A. group of companies. Accordingly, the assets and liabilities were classified as assets held for sale and liabilities held for sale, respectively as the disposal group was available for immediate sale in its present condition. It was measured at fair value less cost to sell as at December 31, 2019. Arising from the divestment, an impairment of S\$4 million (2019: S\$64 million) was charged under non-operating expenses (see Note B4).

The sale was completed on July 30, 2020. The Group's share of the cumulative translation reserve of S\$32 million has been realised in profit or loss upon the completion of the sales.

- c. In 2019, SCM's subsidiary, SES Engineering (M) Sdn Bhd reclassified a workshop in Malaysia from property, plant and equipment to assets held for sale.
