

PRESS RELEASE

SEMBCORP COLLABORATES WITH NXERA TO SUPPLY LOW-CARBON ENERGY TO NXERA DATA CENTRES

Singapore, October 26, 2026 – Sembcorp Utilities Pte Ltd, a wholly-owned subsidiary of Sembcorp Industries (Sembcorp) and Nxera Singapore (Nxera), the AI data centre arm of Singtel Group, have signed a Memorandum of Understanding (MOU) for the supply of renewable and low-carbon energy to Nxera's data centres in Singapore.

The collaboration brings together Sembcorp's energy capabilities and Nxera's data centre expertise to assess scalable solutions that could support Singapore's growing digital economy while enhancing energy resilience and reducing carbon emissions. Potential solutions being explored include low-carbon hydrogen-based generation, biomethane-based power generation, vertical building-applied photovoltaics and renewable energy imports from the 2.2GWp floating solar project at Linggiu Reservoir in Johor, Malaysia. These initiatives would help lower Nxera's carbon footprint even as its operations grow.

The MOU was formally exchanged at the Singapore International Energy Week (SIEW) 2026 in the presence of Dr Tan See Leng, Minister for Energy, Trade and Industry (Energy and Industry), Singapore and Datuk Amar Haji Fadillah bin Haji Yusof, Deputy Prime Minister and Minister of Energy Transition and Water Transformation, Malaysia.

Koh Chiap Khiong, President & CEO, Gas and Related Services and CEO of Singapore, Sembcorp, said, "As AI adoption accelerates globally, demand for reliable, scalable and lower-carbon energy continues to grow. With a proven track record of powering the data centre sector, Sembcorp is well-positioned to support this growth through our diversified energy portfolio. Our partnership with Nxera further affirms our shared ambition to enable the next generation of digital infrastructure while advancing the global energy transition."

Mr Bill Chang, CEO of Nxera and Singtel's Digital InfraCo unit said, "AI is driving a step-change in the power needs of data centres, and in a land- and resource-constrained market like Singapore, how we source that power matters. Working with Sembcorp gives us more options to power our growth sustainably and responsibly. Strengthening our energy resilience will be critical to underpinning Nxera's long-term development in Singapore while supporting Singapore's digital ambitions."

ABOUT SEMBCORP INDUSTRIES
(Company registration: 199802418D)

Sembcorp Industries (Sembcorp) is a leading energy and urban solutions provider, led by its purpose to drive energy transition.

Headquartered in Singapore, Sembcorp delivers sustainable solutions to support energy transition and urban development by leveraging its sector expertise and global track record.

Sembcorp has a balanced energy portfolio of 35.2GW, including 21.8GW of gross renewable energy capacity, across 11 countries*.

Its urban development projects span over 18,000 hectares across Asia and have generated over 466,000 employment opportunities and attracted US\$64 billion of investment capital.

Sembcorp is listed on the main board of the Singapore Exchange. It is a constituent stock of FTSE Russell Index, MSCI Singapore Small Cap Index, Straits Times Index as well as sustainability indices including FTSE4Good Index and several MSCI ESG Indices.

For more information, please visit www.sembcorp.com.

* Total gross capacity assumes 100% ownership of assets, including projects secured and under construction and an acquisition pending completion.

ABOUT NXERA

Headquartered in Singapore, Nxera is the regional data centre arm of Singtel Group, and a leading operator with more than 20 years of experience. In 2023, global investment firm KKR acquired a 20% stake in Nxera. Nxera empowers digital economies and communities through the development of next-generation sustainable, hyperconnected and AI-ready data centres across the Asia Pacific region.

Nxera is a trusted partner to a diverse clientele including enterprises, hyperscalers, and government agencies, delivering resilient and dependable infrastructure solutions that seamlessly support customers' ever-evolving needs. As a carrier-neutral provider, Nxera remains committed to fostering unparalleled connectivity throughout the Asia Pacific region.
