Note: Gross capacity assumes 100% ownership of assets including projects secured or under construction.
The above table excludes Aster Power's asset portfolio of 188MW in Singapore, which are acquisitions pending completion. Including the projects, total gross capacity of the Group is 35.2GW. Capacity under Alinta also includes 0.5GW of third-party renewables projects from which power is procured under long-term agreements to supplement its generation portfolio.
Energy storage capacity is presented as MWh (megawatt hour)
EfW: Energy-from-waste | IPP: Independent Power Plant | IWPP: Independent Water and Power Plant | MW: Megawatt | MWh: Megawatt hour
